WHY CUDA PARTS WASHING EQUIPMENT?

Cuda Automatic Parts Washers provide a safe and efficient solution to cleaning parts because they don't use harmful cleaning solvents to clean. Our automatic parts washers also provide a time-saving, easy parts cleaning solution for your staff allowing them to simultaneously clean parts while performing other tasks.

Parts Tree

Optional drop-in parts tree slips into a recessed pocket of the turntable. Preferred package also includes small parts basket, containment ring and oil drain container.

Compact Footprint

Space saving roll-in door allows easy access to the chamber. Reduces footprint over other traditional parts washers. Roll-in door prevents wash solution from dripping on the shop floor.

Customize and Accessorize

Customize your parts washer to your specific needs, like with this deluxe kit, so washing becomes the easiest part of the work day.

Detergents Extend Your Warranty

The 90-day labor warranty for all Cuda Kärcher Group parts washers is automatically extended to a 1-year labor warranty with exclusive use of our solvent free detergents. Our washers are also covered by a 1-year parts warranty.
