

# Zerust<sup>®</sup> ICT<sup>®</sup>510-C Non-Ferrous Film

TECHNOLOGY THAT PROTECTS METAL FROM CORROSION

## FEATURES

- Proven corrosion protection
- Easy-to-use
- Non-toxic
- Recyclable

## BENEFITS

- Reduce corrosion incidents
- Improve shipment yield rates
- Keep parts clean and dirt-free
- Save money & resources
- Comes with Zerust<sup>®</sup> global on-site support

Save money and resources by protecting metal parts during storage and shipment with Zerust ICT510-C Non-Ferrous Film.

## APPLICATION TYPE

## PRODUCT INFORMATION

Zerust<sup>®</sup> ICT<sup>®</sup>510-C Non-Ferrous Film is an easy-to-use packaging film that contains our proven Zerust ICT corrosion inhibiting technology. Zerust ICT510-C Non-Ferrous Film is cost-effective and versatile protection against corrosion damage for non-ferrous metals, such as aluminum, copper, brass, bronze and galvanized steel in typical shipping and storage conditions. Use Zerust ICT510-C Non-Ferrous Film to protect wire, fittings, brushes or any non-ferrous metal item you want to protect from corrosion.

Zerust ICT510-C Non-Ferrous Film is also known as Zerust non-ferrous polyethylene film and bags, which our customers have been purchasing for years, just with a new name. The "ICT" or "Integrated Corrosion Technologies" name better allows us to differentiate Zerust from generic "VCI" products that contain less desirable chemicals and poorer performing technologies.

### APPLICATION EXAMPLES

A ZERUST ICT510-C NON-FERROUS CLEAR BAG PROTECTING COPPER WIRE FROM CORROSION DURING DOMESTIC TRANSIT.

A ZERUST ICT510-C NON-FERROUS CLEAR BAG PROTECTING BRASS AND COPPER FITTINGS FROM CORROSION DURING INVENTORY STORAGE.

## CORROSION PROTECTION FOR:

# ORDERING INFORMATION

## CONFIGURATIONS

Bags (flat & gusset), tubing, sheeting

## SIZE RANGE (WIDTH)

Bags & tubing:

Flat: 2" - 125" (5 cm - 317 cm)

Gusset: 2" - 150" (5 cm - 381 cm)

Sheeting: 2" - 26'

## THICKNESS

1-8 mil (25-203 µm)

## COLOR

Clear is the standard color for Zerust® ICT510-C Non-Ferrous Film. Other colors available upon request.

## PROTECTION TYPE

Non-Ferrous corrosion protection capability (aluminum, brass, copper, bronze and galvanized steel).

## PROTECTION LIFE

Will protect metals for up to 5 years when properly packed and stored.

## SHELF LIFE

Shelf life of 2 years if stored at 85° F (30° C) or less, out of direct sunlight and in original packaging.

## ICT®500 SERIES OVERVIEW: PACKAGING FILM PRODUCTS

We offer a full range of products for all types of situations.

Choose by corrosion protection abilities.

Choose by physical protection abilities.

Find the product that best fits your needs.

We make a variety of products that are right for your specific situation. For more information about the various products listed above, please visit our web site at [www.zerust.com](http://www.zerust.com) or contact us at +1 (763) 225-6600.

## OTHER PRODUCTS AVAILABLE

### ICT 700 Series: Liquid Additives and Coatings

Temporary corrosion protection for parts in-between production processes, during storage or for added protection to the ICT 500 series products during ocean shipments.

### ICT 800 Series: Diffusers

Self-contained, portable products that diffuse Zerust ICT chemicals to protect metals within enclosures, such as tool boxes, electrical boxes, etc.
